Online Tutorial

<https://youtu.be/H2e6VhYKq-E>

If you are using a paper napkin, start from the row below.

With your square napkin fully opened out, fold the fabric in half, creating a fold edge as indicated by the dashed line.

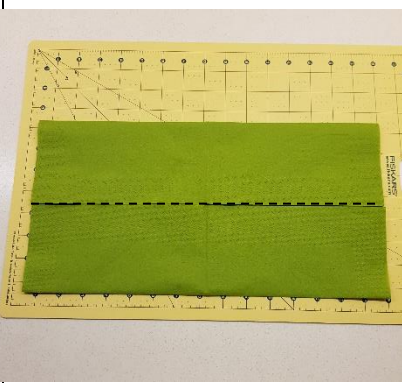

Open the napkin back out again so that you can see the inside of your creased line.

Fold the edge of the napkin closest to you, up to your previous fold line to create another crease that divides the napkin into a quarter, as indicated by the dashed line.

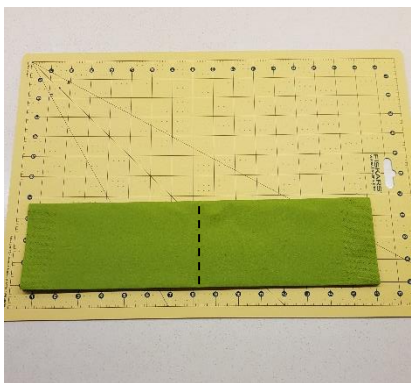

Repeat this to the other side of the napkin as indicated by the dashed line.

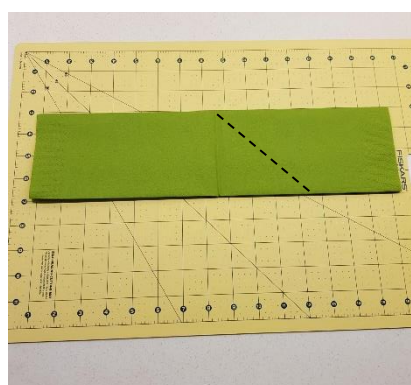

Fold the napkin in half as indicated by the dashed line. (The edges of the napkin will now be inside the top of your fold).

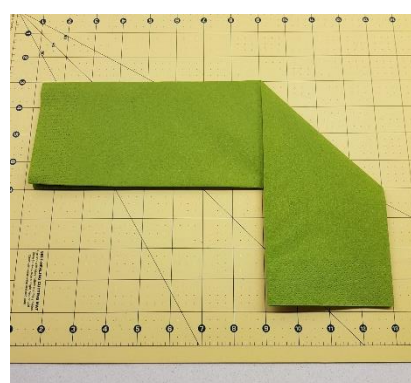

Fold the napkin in half along the length to create a crease line as indicated by the dashed line.

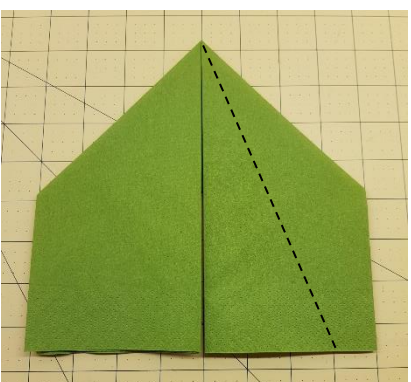

Open the fold.

Use the crease line that you have just created to create a fold along the dashed line.

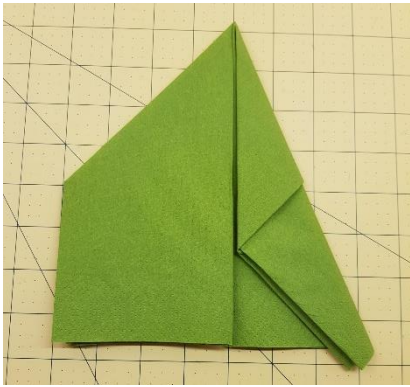

Duplicate this fold on the other side.

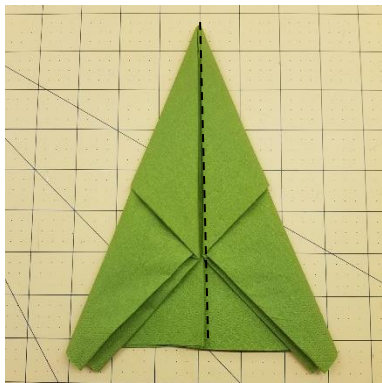

Draw the angled edge to meet the centre of the pattern, creating a fold along the dashed line.

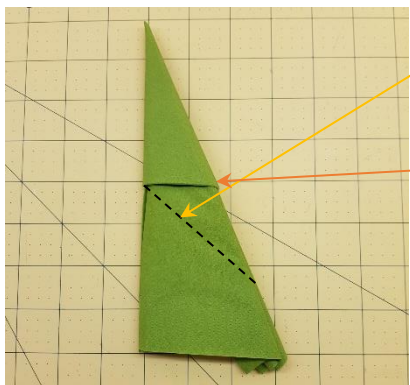

Repeat this fold to the other side.

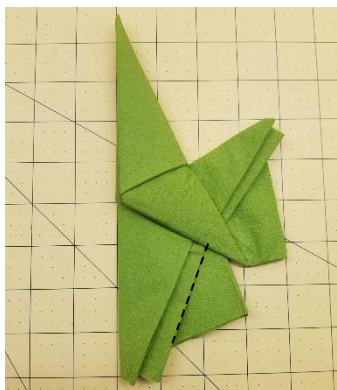

Fold in half as indicated by dashed line.

Fold the top set of layers only, to form a mountain fold at this point.

See next photo ... edge of napkin should line up here.

Fold this section over the front of the pattern.

	<p>Tuck this end ...</p> <p>..... under this section</p>
	<p>Gently fold these pieces down over both edges of the finished slipper.</p>
	<p>Curl up the toe.</p>
	<p>Project complete 🌸.</p>
