Online Tutorial

<https://youtu.be/mQE0fnhltYY>

STEP 1

If you are using a paper napkin skip this section and go straight to “Step 3” below.

With your square napkin fully opened out, fold the fabric in half, creating a fold edge as indicated by the dashed line.

STEP 2

Fold the napkin in half again as indicated by the dashed line.

STEP 3

Now open the napkin out again as shown in the next photograph.

STEP 4

Fold corner of the napkin into the centre to create a fold along the dashed line.

STEP 5

Repeat this fold to the three remaining corners.

STEP 6

Your napkin fold should now look similar to this photograph.

If you want the most basic form of this fold as shown in this photograph, proceed to "STEP 11"

STEP 7

Repeat "Step 4" and "Step 5" creating folds as shown by the dashed lines in the diagram. (The first fold is shown in position as an example).

	<p>STEP 8</p> <p>Your napkin fold should now look like the photograph shown here.</p>
	<p>If you require a larger bowl shape with two layers of petals, (the complete Water Lily has three layers), as shown in this photograph, proceed to “STEP 11”</p>
	<p>STEP 9</p> <p>Repeat “Step 4” and “Step 5” for a third time, creating folds as shown by the dashed lines in the diagram.</p>
	<p>STEP 10</p> <p>Your napkin fold should now look like the photograph shown here.</p>

STEP 11

Turn your napkin over as shown here.

STEP 12

Repeat "Step 4" and "Step 5" for a third time, creating folds as shown by the dashed lines in the diagram.

STEP 12

Note that it will be difficult to fold creases that stay in place. Use an upturned wine glass or jar to hold folds secure as shown in the next photograph.

NB: You will not need a glass for the very basic, single petal napkin fold.

STEP 13

Basic Fold: Reach under each corner for the square of material and pull outwards. Flatten corner down. Repeat to remaining corners. (Refer to photo above step 7)

Other Two Variations: Reach under each corner for the square of material and pull outwards and upwards. Repeat to remaining corners. See next photograph.

STEP 14

First corner complete. Repeat to remaining corners.

You will have another complete set of four corners to pull out and upwards if you originally folded two layers, or two sets if you folded three layers for the complete water lily napkin fold.

STEP 15

You are aiming for something that looks like this for the final Water Lily fold.

Project complete 😊.

Don't forget that you can layer up all the three variations to make a lovely table centrepiece.
